Objective

Seeking a challenging role in web development, AI driven application, where I can apply my skills in MERN Stack, AI, and modern frontend technologies to build innovative user-friendly solution while continuously learning and growing.

Technical Skills

MERN Stack

- MongoDB, Express.js, React.js, Node.js
- HTML, CSS, Tailwind CSS, JavaScript
- REST APIs, JSON

Programing

- C, C++

AI & Automation

- OpenAI API integration
- LLM-powered application

Education

- B.tech in Computer Science, Shri Vaishnav Vidhyapeeth Vishwavidyalaya, Indore | 2026.
Score - 6.1 cgpa
- Higher Secondary (XII) – Mp Board , Indore | 2022.
Score - 74.6%
- Secondary (X) – Mp Board, Indore | 2020
Score – 80%

Projects

CloudBridge (Secure File Sharing Platform) –

Developed a secure and user-friendly file-sharing web application Implement features like, private sharing via email using Nodemailer. Focused on data security, seamless user experience, and efficient file management.

Tech : HTML, JavaScript, Tailwind CSS, MongoDB, Node.js, Express.js, JWT, Multer.

SkillSphere (Ai Powered Resume Builder and Job Portal Using LLM) -

Built an intelligent resume-generation and job-matching platform using the MERN Stack and LLM-based AI. Enabled users to create personalized, ATS-optimized resume, and access smart job recommendation and dynamic dashboard to deliver a seamless, modern job-search experience.

Tech : React.js, JavaScript, Tailwind CSS, MongoDB, Node.js, Express.js, JWT.

GenUI (AI-Based Component Generator) –

Developed an AI-Powered UI component generator using React.js and OpenAI APIs. The system creates complete UI components or full pages based on user prompts and supports multiple tech combinations. Integrate real-time preview, technology selection, and multi-API support to deliver instant, customizable UI output for developers.

Tech : React.js, OpenAI API , Tailwind CSS, MongoDB, Node.js, Express.js, JWT.

Certifications

- Database Management System : Swayam NPTEL
- MERN Stack : Apna College
